

MODERN DAIRY AT COUNTY INFIRMARY

Septic Tank Is Authorized by Board and \$1,200 added to Fund for Cattle.

TRUCK GARDENING CARRIED ON

Superintendent Wylie Will Continue to Furnish Fresh Vegetables to Prisoners in Jail.

Supervisors yesterday made it possible for Rock Island county to possess a modern dairy farm and in the future an experimental station of high order when they voted improvements in the sanitation line and gave sanction for the purchase of \$2,700 worth of cattle.

As the result of their action the expenditures which have been made in the erection of large barns, silos and other improvements will be justified and the county farm has every prospect of becoming self-supporting. Discussion during the morning session of the board brought sentiment to a point where erection of a septic tank was favored. In the afternoon, Supervisor M. O. Griswold moved the construction of such a structure at a cost not to exceed \$500. Sanitation has been one of the big problems at the county farm, but there is no question on this phase of the dairy question now. The septic tank will dispose of the sewage and drainage according to approved principles. No farm in the vicinity will be better fitted for dairy purposes after the construction of the tank, than will the county's.

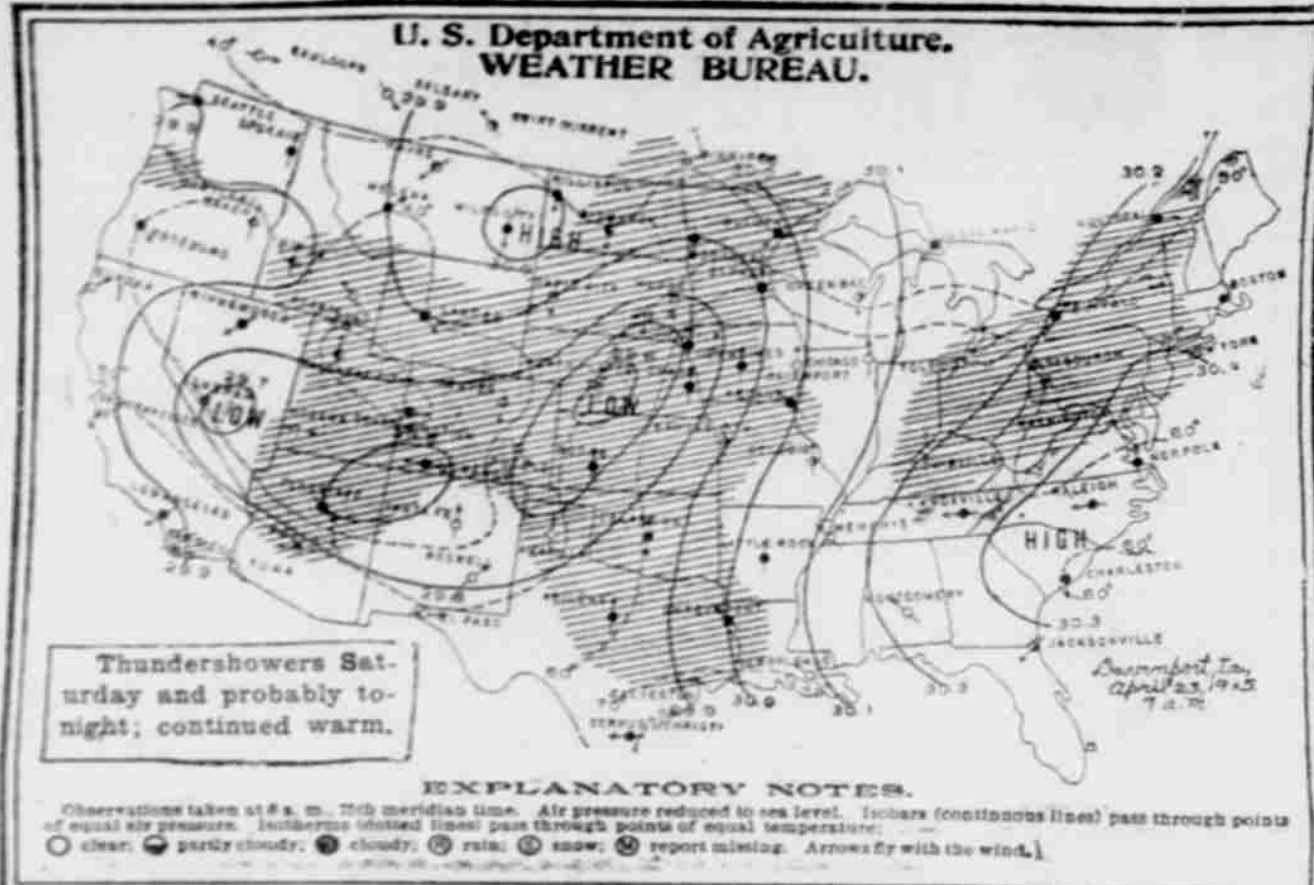

While the discussion was focused on the subject of the infirmary, Supervisor Fred Grafund moved the addition of \$1,200 to the fund of \$1,500 already given the infirmary committee for the purchase of cattle.

Superintendent Clark Corbin of Hampton took the ground that this was an excessive amount, but he was informed that a cattle barn capable of containing 50 cows had been built recently and that other buildings of expensive character had been constructed. It was announced that economical operation of the farm could, therefore only be obtained when there were a sufficiently large herd to make those expenditures worth while.

Superintendent Frank D. Wylie expects to conduct a dairy of large proportions and one that will be a model for this community. Mr. Wylie is an experienced dairyman.

The superintendent has also placed the county in competition with truck gardeners. An expert gardener is already at work there. The plan of the infirmary head to furnish these products to the county for the prisoners is being followed and in so doing he

DAY IN DAVENPORT

Twilight Sleep Is Not New Here—This twilight sleep about which we are reading so much in magazines and hearing from lecturers, is not new to Davenport physicians, declared Dr. D. O. Krenz yesterday. "It is not a discovery of physicians in Germany, as many are led to believe. Twilight sleep is no more than the administering of morphine under various names. It may be used to advantage in certain cases but its use is dangerous at all times. It has been used in Davenport for a number of years. The dan-

ger is too great, however, except in the greatest in the case of the child. It is a mistake for the physicians to report the successful cases only, as they are doing, and neglect to make any reference to the unsuccessful ones, those whether either the mother or child, or both die."

Woman Wins Divorce—A decree of divorce was issued by Judge House yesterday to Mary E. Barber from Arthur G. Barber.

Two Smallpox Cases—Two more cases of smallpox were reported to the health officer yesterday. They are those of Anna Strick at 2001 Eddy street and another in the same place. Joseph Strick, residing in the above named residence, had been quarantined for the disease a few days ago. These are the first cases reported since Tuesday.

The party will go as far as Grinnell and Oskaloosa, stopping at various towns en route the first day. They will return the second day, making a different series of stops. A band and other features, as on past trips to boost trade relations with the nearby towns, will be arranged for. Twenty-two of the members of the association signed for the trip yesterday. SEIZING GERMANS' PROPERTY

British May Confiscate Wealth for Ill Treatment of Prisoners.

London, April 23.—The estimated value of German property in Great Britain now in the custody of the public trustee was given in the house of commons yesterday afternoon as in the neighborhood of £35,000,000 (\$425,000,000).

Russell Res. on behalf of the board of trade, gave these figures in response to a question from Lord Charles Beresford.

Lord Beresford suggested that Englishmen owning property in Germany should recoup out of this fund, and that £1,000 (\$5,000) daily should be confiscated for every British officer subjected to ill treatment while a prisoner in Germany.
